LAHERTY & MITCHELL,
Sept 22nd VERDI, NEV

THE WHIRRING WHEEL.

It is said that next year the guarantee will cover a period of three months only.

Wisconsin cyclists must still pay for their wheels on railroad journeys. They are saying: "Wait until next year!" The estimated cost of the bicycle path which is to be built from Buffalo to Niagara Falls is \$500 a mile.

Montana taxes bicycles two dollars a year, and gives nothing in return, as there are not 100 miles of good roads in the state.

Lenox library, New York city, will have a room fitted up with bicycle racks, so that cyclists can check their wheels in safety, as an attendant will put every one under lock and key.

By a new law, Connecticut riders of bicycles who neglect to use bells on their wheels will be subject to a fine of \$20, or less, in each case, and may be held for any damage or injury caused by their neglect.

A Long Island judge has ruled that a bicycle suit is not respectable. The decision was given in a case where a man in regulation wheeling costume made his appearance in court for jury duty. The judge dismissed the man from the jury, and cautioned him to never appear in court again unless attired in coat, vest and "other apparel that will conform to the dignity of this court."

BY THE JOKERS.

The Reason.—She—"Woman's mind is clearer than that of man's." He—"Certainly. She changes it oftener." Indianapolis Journal.

Friend—"Does your town boast of a baseball team?" Suburbanite—"No. We used to boast of one, but we have to apologize for it now."—Puck.

"Didn't I tell you that if you went swimming again I would punish you?" asked the stern father. "I didn't forget," replied Johnnie, whose hair was dripping, "but I can't swim a stroke."—Detroit Free Press.

Able Mark—"You say you have grown rich on hens?" Fuller Water—"Yes, sir." Abel Mark—"How many do you keep?" Fuller Water—"Keep hens? What do you take me for? I run a poultry paper."—World.

Miss Oldgirl—"You naughty man! Do you mean to tell me that this is the first time you were ever in love?" Mr. Oldboy—"I did have a rheumatic affection once; but, of course, that does not count."—Boston Transcript.

First Reformer—"I'm trying to write an essay on the emancipation of my sex, and I find it very hard to begin." Second Reformer—"Oh, I think that would be so easy. Why, you might begin by sharpening your pencil with your husband's razor, you know."—Detroit Tribune.

AUTHORS AND BOOKS.

Tennyson wrote the following to a persistent and importunate American desirous of an autograph and sentiment: "A. Tennyson. Sentiment: 'Ask me no more.'"

Among the gifts lately received by the Boston public library are the library of the Boston Browning society, \$1,000 from the Papyrus club, to be used in purchasing books for a memorial to John Boyle O'Reilly, and 17 paintings by Howard Pyle, illustrating scenes in the life of Washington and colonial times.

Celia Thaxter said, of her home on the Isles of Shoals, that a rainy day there was more lovely to her than the sunshine of paradise could be. This Scandinavian daughter of wind and sea and storm was the very poet of nature, and one can well imagine how she reveled even in the tempest of her chosen home spot.

To perpetuate the memory of Tennyson, a cross of granite 32 feet high, has been reared at the summit of Freshwater Down, and will be known as the Tennyson Beacon. Raised by subscription, this memorial was handed over to the corporation of Trinity House on August 6, when the inscription on it was unveiled by Lady Tennyson.

IN HIGH CIRCLES.

Rehad Effendi, who is regarded as the sultan's probable heir, is the owner of something that is exceedingly rare among Turks—a head of red hair. Should he succeed to the throne now occupied by his brother it is said that he will be obliged to dye his sandy locks jet black.

The English society papers are full of comments on the recent advent of a son and heir into the family of Lord and Lady Craven. It is openly announced that Lord Craven's estates, while very extensive, are heavily incumbered, but Mr. Bradley-Martin has shown little inclination to come to the rescue very substantially.

The German crown prince brought down his first stag and his first chamouls during his recent stay at Tegern See, as he was allowed to go out shooting several times with the duke of Theodor of Batavia in the royal preserves among the Bavarian Alps. The imperial party twice ascended the Hirschberg in order to see the sun rise.

Mrs. Joseph Chamberlain, wife of the English secretary for the colonies and daughter of W. C. Endicott, Mr. Cleveland's first secretary of war, as a special evidence of the favor in which Queen Victoria holds her has received from her majesty the gold instead of the silver jubilee medal. The gold medal was conferred, as a rule, only on royal personages.

Prince Bismarck is at present in the best of health and wonderfully fresh and cheerful for his age. He enjoys long drives daily in the neighborhood of Friedrichsruh, where his admirers lie in wait for a glimpse of him. Count Herbert Bismarck and his family are spending the summer with his father, whose one great wish is to revisit Varzin, the family estate in Pomerania, where Princess Bismarck is buried.

Every one knows the biblical story of the Passover. The angel of death turned aside only at the doors of the chosen people. The first-born of all others were slain. There is a chosen people to-day at whose doors the angel of death turns aside and whose first-born escape unscathed while the children of others perish. The chosen people are the healthy people. Nine-tenths of the deaths among children are due to the ill-health of the mothers during the period preceding motherhood. Every woman owes it to herself, her husband and her children to keep herself healthy in a womanly way. She should thoroughly understand her own physical make-up. She should realize the importance of keeping the organs of womanhood healthy and vigorous. She can only do this by taking proper care of herself and using the proper remedy for weakness or disease of those organs.

The best remedy for weakness or disease of the organs peculiar to women is Dr. Pierce's Favorite Prescription. It is truly wonderful in its effects on the female organism. It allays inflammation, soothes pain and restores health and vigor. Get it at the druggist's and take no substitute. Your health and your children's health depend upon it.

"Since I wrote you we have had a baby girl born to us," writes W. R. Malcolm, of Kandel, Clay Co., Ark. "My wife took your 'Golden Medical Discovery' and also your 'Favorite Prescription' all during the expectant period and until confinement, and she had no trouble to mention. A stouter, healthier child was never born. Our child will be one year of age the 8th inst. and she has not been sick a day. Has not had so much as the colic."

Every woman in America should own a copy of Dr. Pierce's Common Sense Medical Adviser. In its 1,000 pages she will find plain talks about all sorts of ailments. These talks are made plainer by copious illustrations. About 90 pages are devoted to woman's diseases and weaknesses. There are suggestions for home-treatment. This book has already gone into more than a million homes. The original price was \$1.50. Now an edition in paper covers is being distributed FREE. Send 21 one-cent stamps—this pays for mailing only—to World's Dispensary Medical Association, Buffalo, N. Y. A copy bound in fine cloth is desired, send 25 cents extra—31 cents in all.

EASTERN ADVERTISING OFFICE,
231 Temple Court, New York City,
E. Katz, Agent.UTAH TAKES NO BETTER THAN
NEVADA

It appears that Utah is in disfavor at the White House, or wherever Mr. Hanna may have his appointing headquarters, as well as Nevada. The President, at the instigation of Mr. Hanna, appointed H. N. McGrew of Arizona, Register of the United States Land Office at Salt Lake city, and the Tribune says, this is a slap in the face to the Republicans of Utah, which it is hoped they will have the manliness to resent. It is the first time in the history of the country that a man from a Territory has been appointed to a Federal office in a State.

In Utah as in Nevada, there were several residents of the State who had applied for the position which Mr. Hanna gave a non-resident. That did not matter, however, as the great boodler makes his own selections and insists upon having them appointed by the man who is nominally President. It was told before election that if McKinley was placed in the White House Mark Hanna would be President and events are now proving the truth of the assertion. He is said to be a regular bulldozer, and as he claims the credit of saving McKinley from bankruptcy by taking up \$115,000 of his notes and of subsequently making him President, he is going to use his power with an iron hand.

But why do not the Republican papers of Nevada with one accord protest against Mr. Hanna's usurpation of authority, especially in appointing non-residents to Federal positions in sovereign States? Are they expecting some crumbs from Mr. Hanna's table and fear that they might incur the displeasure of the great dispenser of public patronage by referring to the fact that the party in Nevada was as outspoken in favor of home rule as for the gold standard in the Presidential campaign? Why not in plain words ask Mr. Hanna if he thinks that those who renounced the principles for which they had been contending for years, because he had deluded against those principles at St. Louis, are not entitled to consideration when the Federal cap is being distributed? Why not ask him if they are not entitled to reward for trying to make the people believe that the advance in the price of beef and wheat, caused by a scarcity of cattle at home and a failure of the wheat crop abroad, is attributable to the change in tariff schedules? Surely the great boodler cannot expect his admirers to do these reprehensible things for nothing and unless the Republican press of the State is subsidized or hypnotized by Mr. Hanna it will rebel against the treatment the party is receiving at his hands in Nevada. The editors of the gold papers in Nevada must surely know that if the Hanna-Cleveland rule, that non-residents, so far as practicable, shall be appointed to Federal offices in the mountain States, becomes firmly established many more ex-Republican officials will hasten from Nevada so as to become eligible.

WHAT SENATOR STEWART SAYS.

Senator Stewart upon his arrival at Elko from a trip through South-eastern Nevada was interviewed by the Independent and among other truths said:

"If the mints were open to the coinage of silver every agricultural valley in Nevada would be occupied and improved, and Nevada would assume a leading position among the States of the West. Without enlarging on the silver question, I congratulate the people at large upon the progress of the silver cause. The Silver party a year ago contained six and a half million of members which was a larger vote than was ever cast for a President previous to that time. It undoubtedly constituted more than two-thirds of the independent voters of the United States. It required twenty millions of money and more coercion and fraud than was ever practiced on earth before to put Major McKinley in the White House. The silver cause now has a party and when there is a change of parties silver will be restored. Neither money, intimidation, fraud or all combined can prevent a change of parties. For the last twenty-five years there has been no change of parties. The same party has been in power under different names. It is true the Republican party still has three names—the Republican gold combination, the Cleveland gold ally, calling itself the National Democracy, and the Coxey fake party, calling themselves Middle-of-the-Roaders, but everybody knows that they are all working together for the Republican party and consequently they deceive no one. The division of parties is the dividing line between plutocracy, aristocracy and the gold oligarchy and Democracy as taught by Jefferson, Jackson, Lincoln and Bryan.

The council of full blooded Cherokees and other tribes in Indian Territory has decided to reject the Dawes treaty with the Creek Commissioners. They no longer disguise the fact that they will resist by force the opening of their country and this sentiment is encouraged by neighboring tribes.

Edward Langtry, the husband of the Jersey Lilly, died at the Obeser, England, Insane Asylum Friday night. It is supposed that Mr. Langtry's condition was caused from concussion of the brain due to a fall down the gangway of a steamer a short time ago.

TELEGRAPHIC NOTES

Geo. A. Garthorne, who shot himself in the office of the American Biscuit Company, San Francisco, Thursday, died of his wounds yesterday.

Benjamin M. Goldberg, ex-District Attorney of Waukegan county, Wis., and a member of a prominent law firm of Milwaukee, was arrested on a charge of perjury yesterday.

Frank Cook, bookkeeper and secretary of the Federated Trades at Sacramento has disappeared. It is thought that he has squandered the money in his keeping at the gaming table.

Mrs. Isabella Williams of San Francisco, recently convicted of assault for throwing red pepper in her husband's eyes in a fit of jealous rage, was fined \$120. Her husband paid the fine and she was discharged.

Captain L. A. Lovering, U. S. Fourth Infantry, charged with ill treatment of Private Hammond at Fort Sheridan will be tried by court martial. Secretary Alger issued the order from Washington yesterday.

Miss Elsie De Vere, the actress who was charged with stealing a hat from the Emporium, San Francisco, and pleaded kleptomania as her excuse, was found guilty and fined \$25 by Judge Low. Miss De Vere paid the fine.

The coasting steamer Trinton from Havana was wrecked on the north coast of the Province of Pinar del Rio. The steamer grounded eight miles from the coast. It is reported that she had 200 souls on board and so far only the purser and one passenger have been found.

William Limba, a son of the Justice of the Peace of Powersville, Georgia, and Barker Amos (colored) fought a duel to the death two miles from Powersville Friday afternoon. Limba was shot through the heart and Amos was killed by three bullets from his victim's pistol.

Nine new cases of yellow fever were reported at New Orleans yesterday, but no deaths. Eight new cases at Edwards, Miss., and at Cayuga fifteen. Seven new cases are reported at Mobile; no deaths. At Galveston, Texas, the Board of Health reported that there was no danger of infection and that the quarantine will be raised.

No definite decision was arrived at at the meeting of the English Cabinet regarding the opening of the Indian mints to the coinage of silver. The matter was discussed and will form the subject of further correspondence between that country and the United States. It is understood, however, that a statement will be issued next week that the British Government does not intend to suggest that the Bank of England should hold its reserve partly in silver.

The express office at Quincy, Cal., was robbed sometime during Friday night. The robber took the express box which was awaiting the outgoing stage and carried it to a field a half mile distant and broke it open, securing coin, gold dust and a gold bar amounting to \$400 and \$3,800 in checks. When Messenger Montgomery called for the box he found it gone and at once notified Sheriff Bransford. Suspicion pointed to Lowell Maxwell, and the Sheriff and messenger went to where Maxwell stopped and found him in bed. He was arrested and placed in jail. He is considered a bad character. None of the treasure was found, but the officers think they have the right man.

HISTORICAL BRIEVITIES.

Carthage was destroyed 146 B. C. It was 24 miles in circumference, and is said to have been burning 17 days.

Samuel Adams first originated the idea of declaring the American colonies independent of Great Britain.

Peacocks have been known for many hundreds of years. They are mentioned in the Bible. Job mentions them, and they are mentioned too in I Kings, x. Hundreds of years ago in Rome many thousands of peacocks were killed for the great feasts which the emperors made. The brains of the peacock were considered a great treat, and many had to be killed for a single feast.

Louisiana in 1803 included almost the whole region between the Mississippi and the Rocky mountains. It had been ceded by France to Spain in 1762. Spain wished to deny to our people the right to navigate the great river that formed our western boundary, and the people west of the Alleghenies wished our government to seize the whole of Louisiana.

In 1800 Louisiana was ceded back to France. In 1803 two commissioners were sent to France by President Jefferson, with instructions to buy for the United States, if possible, a part of Louisiana, including New Orleans and the mouths of the Mississippi. But Napoleon, who then ruled France, fearing that England would seize the territory, took a sudden resolution to sell all of Louisiana to the United States. For this the United States paid \$15,000,000.

The Treasury officials refuse to exchange half a million greenbacks for gold to accommodate the Bank of British North America, New York. The Treasury Department is intent on retiring the greenbacks and wants them withdrawn from circulation, as it does the standard dollars, which it will not exchange for gold coin. The Government could coin the silver bullion lying idle in the Treasury vaults and exchange the silver coins for gold coins and redeem bonds and save interest, but that would be displeasing to the gold trust and it will not be done. Strange to say there are people here in Nevada who uphold the action of the Government, not for the good of the country, however, but because it is the policy of the gold Republicans.

CLEARANCE SALE

OF SUMMER GOODS.

To take a look at our stock of shirts before you go away. We have a large stock of white and colored bosom shirts to select from. All the newest patterns. The prices will please you.

HUNGER AS A MOTIVE.

It is the Aladdin's Lamp of Civilization.

The howls of nature's most powerful spur, hunger, are continually reddening the flanks of the primitive community, says the Monist. The apostle's scathing arraignment of the Cretans, "whose god is their belly," would literally apply to every savage tribe—and many a civilized one. Hunger is one of the imperatives of progress. At its imperative command the flint was chipped into the arrow head, the dart, the spear. In its honor the net was woven, the hoe was made and the soil broken. To appease its cravings the wild bull is broken to the yoke, the forests are felled, the ditch is dug through the marsh.

On its errands the ship is launched on the perilous deep and the hand sent out upon the war path. Into its service have been impressed the winds of heaven, the steam wreaths of the caldron and the glittering shafts of the lightning. It is the real Aladdin's lamp of civilization. The ceaseless westward flow of the human streams and the march of the "star of empire" have been at the behest of its genius. Whether it be born of a barren soil and a cruel sky or of the pressure of overpopulation, it has played a leading part in molding the destinies of the nations.

In the fall of every world empire from Assyria to Rome the conquering race has invariably come from the mountainous or barren land, or from a stern sky. And still to-day the nations of the blindest belt of the temperate zone, where the struggle with soil and climate is severest, the Scotch, the English, the Dutch and the North Germans, are overrunning the whole of the inhabitable globe and bid fair to far outdo Alexander by more peaceable and far more stable means.

HINTS TO MOTHERS.

During their vacation children should wear comfortable, well-made shoes, either without heels or having very low, broad ones. The spring heel is best for little children.

Parents should teach their children to know how to distinguish poisonous ivy and sumach from other plants, so that they might avoid touching or going too near them.

Children who are going in the country should be taught to abstain from eating green or half-ripe fruit. They should also be taught the danger of drinking directly from brooks and pools of water.

For mountain, seaside and general country wear in summer, suits and dresses of serge or flannel are a long way the best for boys and girls. Serge is an especially durable material. For the seaside, storm serge is an excellent dress material.

If a child were impressed with the idea that he might swallow some tiny creature that would grow in his stomach and give him great pain and trouble, he would not be so ready to stoop down and drink from woodland brooks and pools; he would have a wholesome fear of tadpoles and other amphibious life.—Ladies' World

ETIQUETTE NOTES

One may be truly a gentleman, yet not be versed in all the canons of "good form," for these are subject to modifications and changes, whereas the qualities that attest true ladyhood are innate and ever the same.

The gentleman never indulges in the practice of giving nicknames or unpleasantly descriptive titles to his friends, or to neighbors, or strangers; she also teaches her children not to practice such rudenesses.

The true gentleman never makes use of slang, nor of words or sentences capable of a secondary, doubtful meaning. American young girls are very lax in this respect, many of them delighting in imitating the youth of their acquaintance. To all such I would say, beware of slang and coarse language. It shocks all refined persons and makes an especially bad impression on those of the other sex whose opinions are worth anything.

TOWERS FOR LIGHTS.

Electric Lamps at a Great Height Have Not Proved Successful.

When arc lights were first introduced for street lighting there was a very exaggerated idea of their lighting power, says the Engineering News. A light of 1,000-candle power seemed such a powerful illuminator that the idea was very naturally conceived of placing lamps on the top of tall towers and lighting the whole area of a city. Several municipalities adopted this tower system of lighting, of which the best known example is doubtless Detroit. It was at once found, however, that a cluster of arc lamps 150 feet or more from the ground might be an excellent plan for lighting the whole of a large area, but was a very poor plan for lighting city streets. In the average American city, with long blocks, the streets comprise not more than one-third of the area. Hence with the tower system of lighting 66 per cent. or more of the illuminating power is wasted in lighting up house roofs, back yards and vacant lots.

Nearly every city of which we have information that originally adopted the tower system of lighting has abandoned it. It is therefore quite surprising to learn that Des Moines, Ia., proposes to put in a municipal street-lighting plant and to use the tower system. What consideration influenced the city authorities to adopt this system we do not know, but we would strongly urge them to investigate the experience of Detroit and other cities with the tower system of lighting before they construct such a plant in their own city.

MISCELLANEOUS ITEMS.

—The Red Lion, an inn at Ardmore, Pa., has been a licensed public house for 100 years.

—Oldenburg's dynasty is saved from extinction by the birth of a son to the hereditary grand duke.

—The Taylor Street Methodist church of Portland, Oe., has set aside a pew especially for the use of commercial travelers.

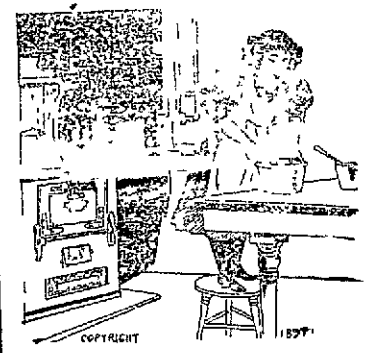

—According to Atchison reports the people of that town fish for bats about the electric lights in the evenings, baiting the hook with worms and then waving them through the air.

—At Orange, Ky., R. H. Lyons turned a waste pond on his farm into a fish pond ten years ago. Now he has a chain of fish ponds worth \$15,000 on the place, all stocked from the waste pool.

DIED.

UTLEY.—In Reno, October 18, 1897, Mrs. Charlotte Utley, a native of England, aged 77 years.
Funeral will take place from the residence of Thomas Tunney, on Mill street to-day at 2 P. M.

HAWKINS.—In Reno, October 18, 1897, Mrs. Elener Hawkins, a native of St. Ives, Cornwall, England, aged 72 years 1 month 17 days.
Funeral will take place from Trinity Church Tuesday, the 19th inst. at 3 o'clock in the afternoon. Friends are respectfully invited.

To Build A
Hardware Business

up to the right pitch is hard. We have for years been perfecting our store—attending to innumerable details—until now we are proud of our store and of anything we sell.

BREVITIES.

Water pipe laid cheap by Lange & Schmitt.

Window glass cut all sizes at Lange & Schmitt's.

Harry Darling took the train for San Francisco last evening.

Henry Anderson took the late train for Truckee last evening.

The mercury stood at ten degrees above zero at Elko Friday morning.

S. S. Sears of the Pyramid Reservation was a visitor in town yesterday.

Crockery, glassware, tinware and agateware lower than ever at Lange & Schmitt's.

Pearl gloss tooth powder is absolutely harmless. Sold by Reno Drug Company.

H. M. Gorham of the Comstock arrived on the local yesterday and spent the day here.

The Reno Drug Company has a splendid assortment of perfumes, fancy soaps and toilet articles.

Men's and boys' overcoats in all grades at Nathan's; also heavy winter underwear at the lowest figures.

Universal cook and heating stoves, and cheaper grades sold at cost to reduce stock at Lange & Schmitt's.

The snow at Hobart Creek station is 14 inches deep and at Marlett Lake 21 inches as a result of the late storm.

The best floor and house paints in town are those mixed to order by the Porteous Decorative Co., Eureka Block.

Louis Abrahams arrived from Susanville last evening, but was compelled to go on to San Francisco on account of business engagements.

The lunches at the Granite Saloon cannot be excelled and the beer is served ice cold. A choice stock of wines by the bottle or gallon.

C. Novacovich has just received a carload of the celebrated Pioneer flour. He also has the chicken and oyster tamales in cans—something new and delicious.

Senator Stewart will return to Elko from Tascara and remain over Sunday. Monday evening he will address the people of Carlin, and will go to Eureka Tuesday.

Chas. A. Panabaker, who was burned to death at Bieber, Cal., recently, is reported to have been a school teacher in the public school of Reno about twenty years ago.

The Granite Saloon is a quiet and pleasant place of resort. Cool beer is a specialty. Choice wines are sold by the gallon or in quantities desired also liquors of all kinds.

Henry Wood, Sr., of Mason Valley, died at his home on last Sunday morning after a long and painful illness. Mr. Wood was the father of Henry Wood, clerk at the Asylum.

Mrs. W. J. Tremain, representing the Nonpareil of Sacramento, will remain one week longer in Reno, located at the Riverside Hotel with a full and complete line of millinery and ladies' furnishings goods.

Henry Ritter's lunch to-day will be superior in every detail, and every patron may be assured of receiving the very best of treatment. James Kerr is always accommodating and Henry is an excellent caterer.

Miss Nellie Keig, who has been visiting relatives at Virginia, arrived on yesterday morning's local and will visit her sister, Mrs. Chas. Lake, before returning to her duties as a nurse at the Fabiola Hospital, Oakland.

Call at Muller & Stumpf's Pabst agency for fine California and imported wines for family and medicinal purposes. Sherry, port, muscatel, angelica and all dry wines by the gallon. Open every day until 8 o'clock.

The dinner at the Riverside to-day will equal any that could be procured at Delmonico's. Sunday dinners are a specialty at the Riverside and when one considers it all, they are far less expensive, than can be gotten up at home. Captain Gosse and his chief clerk, Geo. W. Obeek, will surely make all feel at home.

A young lover at Berlin undertook to break the kissing record by recording 10,000 kisses in ten hours. His sweetheart was willing and a record of 3,750 kisses was made in three hours, when his lips became paralyzed and he fell over unconscious. The young lady was not effected in the least. A Reno lover may not be able to beat this record in point of numbers, but he can glue "his lips to hers" and bang on until the old lady call out from an upstairs window to "break away, it's after 2 o'clock."

I have just received a complete and well selected stock of gents' furnishing goods, underwear, overshirts, socks, suspenders, handkerchiefs, ties, etc., which I guarantee to be equal if not better than any in the town, which I will sell at prices that defy competition. My stock of domestic and imported cigars and tobaccos is complete in every particular, comprising such brands as the Nerve, Carl Dunder and Royal in the 5-cent goods, and El Belmont, Sanchez, Hays, De Vallens, Internations, Hotel Brunswick, General Arthur and many others in the imported goods. Call and be satisfied. Free employment office in connection with the store. A. NELSON.

DEATH IN THE NORTH.

Harry Bigelow, Well Known in Western Nevada, Dies Suddenly.

Dr. Thomas received the following telegram from Judge Bigelow Friday evening:

"After three hours sickness of congestion of the lungs, Harry died today."

The news was a terrible shock to the friends of the deceased, and the awful blow to the parents is simply indescribable.

Only a few days ago Judge Bigelow visited Carson on professional business and spoke of his daughter's wonderful progress in her musical studies at New York. It was easy to be seen that he had great hopes of her ultimate success and felt a pardonable pride in speaking of her. He had hardly reached his San Francisco home when the heart-breaking news came that she was dead. Died away from her loved ones, away from those whose every hope was centered in her, and so suddenly, too, that even the flash of the telegraph could not give them warning of the end that was so near.

Expressions of sympathy at such a time, though sincere and emanating from bleeding hearts, is but poor consolation, indeed, and one can only bow in silence and hope that the God who gave the bright young life its brief sojourn to cheer those about her, will help to support the poor parents in their awful affliction.

Miss Bigelow was born at Elko, Nev., and was in her twentieth year. She had shown a remarkable musical talent and her parents had sent her to New York where she could secure special advantages. She was of a bright and affectionate disposition and those who were personally acquainted with her held her in the highest esteem.

To the bereaved parents, the deepest expressions of sympathy will be accorded from every part of Nevada where Judge Bigelow and his estimable wife are so well known and while they are bowed with the most poignant grief they may know that many hearts in Nevada are with them in this awful hour. Mrs. Thoma will at once go to San Francisco to render such aid and comfort as she may be able to give under the circumstances. Arrangements for her burial have not yet been announced, but it is believed that the remains will be brought to the coast.

A SINGULAR PHENOMENON

The Water in the C. & C. Mine at Virginia, Elko and Elko Lake Ocean Tides.

The Suto Tunnel taps the C. & C. mine at a point 10 feet above the 1750 level, but the water stands 3 feet below the 1750 level, so that when a cage is lowered down until its upper deck is on a level with the floor of the 1750 station the lower deck is submerged.

A singular phenomenon is observed at this point, that is an ebb and flow of the waters as if they were directly connected with the waters of the ocean. This phenomenon has been noticed by all the miners at work in the mine.

A most singular thing is that each Sunday the water rises several feet higher than during any other day in the week. When the men go to work Monday mornings there is always a clear high water mark where the water has encroached on the 1750 level during the day before.

Mr. Hawkes, foreman of the mine, is of the opinion that some where in the country, water is used during Sunday. This may lead to an interesting clew regarding the course of subterranean water courses.—Enterprise.

The Parochial School Entertainment.

A large crowd attended the Parochial school entertainment last evening. The various numbers on the program were well rendered and fully enjoyed by the audience. Mrs. Carrie Clarke Ward volunteered her services to the sisters and managed the entertainment. She took the character of Nan in "Nan, the Good-for Nothing," and created a whole lot of fun. Much of the success of the entertainment is due to her efforts.

The sisters realized a goodly sum from the sales at the bazaar, also from the refreshment stand and rendering's entertainment.

The Viavi Work.

In no way can we do more good than in restoring the sick to health. This Viavi will do, if intelligently used.

Have you stomach trouble? Use our Tabloids.

Have you piles? Use our Sano.

Have you catarrh? Use our Catarrh Remedy.

Are you weak and all run down? Use Viavi.

Come and see me and I will fully explain the use of all of our remedies.

Mrs. R. E. HUNTER, Fourth Street.

Killed in a Mine.

Joseph Motton, a well-known and popular young man on the Comstock, was killed at the Cook & Grey mine, Silver City, yesterday morning by falling down an upraise thirty or forty feet. It is supposed that a rock fell striking him on the head while he was ascending a ladder, the blow stunning him and causing him to lose his hold and footing. His skull was crushed, but whether from the falling of the rock or striking his head in his descent could not be stated.

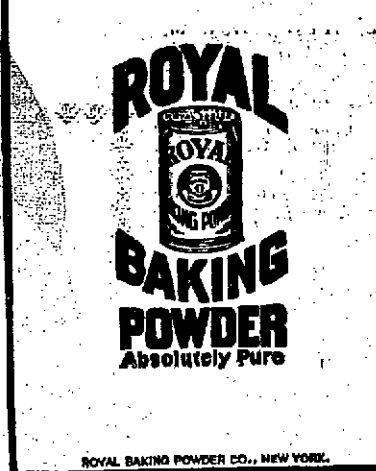

Notice.

There will be a meeting of the Reno Wheelmen Monday evening, Oct. 18th. Business of importance will come before the meeting and each and every member is specially requested to be present. By order

WM. FINNIGER, President.

ROYAL BAKING POWDER

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

BREVITIES.

Mrs. D. A. Bender is reported seriously ill at San Francisco.

Hon. Chas. Kaiser of Churohill county was a visitor in Reno yesterday.

Billy Gillespie of Redding, a brother of Mrs. B. C. Shearer, is visiting his father here, who is very ill.

Coal oil is selling at Carson for 25 cents per gallon, and the low price is considered an indication of McKinley's prosperity wave.

E. Smith and wife took the train for Mohawk yesterday morning on a visit to their son Jarvis, who is passenger conductor on the Sierra Valley Railway.

If you feel that you need something to drive away the blues or make you at peace with the world, call at Spiro's Wine House and ask him to prescribe for you.

The Washoe Lunch Counter will serve a splendid dinner to-day. Lamb, chicken, duck and other delicacies will be the order. Look at their window display.

Miss Ada Lickins of San Francisco, who has been in Wadsworth for a month past, is visiting Mrs. Gosse for a few days prior to her departure for Riverside, Cal.

Mark Finnegan, the Western Union line man, has the new copper wires far as Vista. He expects to string from twenty to twenty-five miles a day after leaving Wadsworth.

Col. McGlashan of Truckee talks of organizing an exploration company for the Klondike. His proposition is to have sixty stock holders with \$500 each, fifteen of whom will go to Alaska in the company's interest.

Carson has another prize fight in prospect. Dan Stuart said that he believes that Corbett and Fitzsimmons can be brought together again at Carson. It is about time for Reno to begin building another arena.

The Palace Dry Goods and Carpet House carries an immense stock of capes and jacket and invites the ladies to call and see them, before purchasing elsewhere. The stock is new throughout and the prices extremely low. The Palace makes a specialty of children's garments and carries a good line of ready made dress skirts, wrappers and waists at reasonable prices.

Thyes does not practice any "epider and the flip" enticements; his representations are pure and simple. He gives a fine Sunday lunch with soup and other extras. His oyster cocktails are non-alcoholic and are meat and drink combined and recommended as an aid to digestion by physicians, and upon tamales every evening are not only a delicacy, but a staple article.

Church Notices.

Trinity Church—Morning prayer and sermon at 11 A. M. Evening prayer and sermon at 7 P. M. Sunday school at 12:30.

Presbyterian Church services will be held on Sunday next at 11 A. M. and 7:15 P. M. in the Odd Fellows Hall (old Congregational Church.) Rev. M. E. Riddle, General Missionary, will preach. A cordial invitation is extended to the public to attend. Those interested in the organization of a Presbyterian Church are requested to be present.

Unitarian or Liberal Congregation—Services at Lodge Hall of New Investment Building at 11 A. M. Subject of sermon, "What Shall We Do With the Coming Year?" by M. J. Savage of New York.

Baptist Church—10:30 A. M., morning prayer; 11 A. M., a plain talk on a timely topic, "If God be God, Follow Him, if Baal, Then Follow Him." Sunday School, 12:15; 6 o'clock, B. Y. P. U.; 7 o'clock, evening service.

Methodist Church—Morning class, 10 o'clock; service and sermon at 11, "The Church and Her Mission." Epworth League, Young People's meeting at 5:45 P. M. Evening service at 7, "What Are We Saved From."

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tonic and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

WHERE CLAY PIPES ARE MADE

Brasley, England, Where One Year 117,000,000 Pipes Were Made.

It is difficult to state with any degree of accuracy which tobacco was first introduced into Europe, but it is generally believed that Sir Walter Raleigh took it to England toward the end of the sixteenth century. With the introduction of tobacco came the need of tobacco pipes, as before tobacco smoking began the smoking of herbs and leaves even for medicinal purposes was not at all general. It is stated that at Brasley, in Shropshire, the first clay pipes were made; and although many are made in Glasgow and elsewhere, yet the Brasley clay pipes are the best known among old smokers the world over, and their manufacture is still continued by descendants of the original makers.

The clay for making the pipes is and always has been obtained from Devon and Cornwall, the absence of coal in these districts and the abundance of it in Brasley having offered sufficient inducement to the early manufacturers to settle there. Pipe making in the early days of its introduction was a very different matter from what it is now. Then the greater part of the manipulation was performed by the master, and 20 or 24 gross were the largest quantity ever burned in one kiln. This required about a ton of coal. Each pipe rested on its bowl, and the sters was supported by rings of pipe clay placed one upon the other as the kiln became filled; the result was that at least 30 per cent. were warped or broken in the kiln.

At the present time the preliminary preparations of the clay are made by men, but the most delicate part is almost entirely entrusted to the hands of women. The pipes are placed in "saggers," to be burned after the Dutch mode, and from 350 to 400 gross in one kiln are not an uncommon quantity. The breakages amount to not more than one per cent. One collector has a splendid collection of old clay pipes, the oldest of them, from their trade marks, hailing from Brasley, and being dated as long ago as the year 1600.

—N. Y. Sun.

HEIR TO THE THRONE.

How Princess Victoria Was Told of Her Chance of Succession.

Many interesting stories of the "Girlhood Days of England's Queen" are told in an article in St. Nicholas, written by James Cassidy. Mr. Cassidy quotes the following from a letter written to the queen by her former governess, Baroness Lehzen:

"I ask your majesty leave to cite some remarkable words of your majesty when only 12 years old, while the regency bill was still in progress. I then said to the duchess of Kent that now for the first time your majesty ought to know your place in the succession. Her royal highness agreed with me, and I put the genealogical table into the historical book. When Dr. Davys (the instructor of the princess and afterwards bishop of Peterborough) was gone, the princess again opened the book, as usual, and, noticing the additional paper, said: "I never said that before."

"It was not thought necessary you should, princess," I answered.

"I see I am nearer the throne than I thought."

"So it is, madam," I said.

After some moments, the princess resumed: "Now, may a child would boast, but they do not know the difficulty. There is much splendor, but much responsibility."

The princess having lifted up the forefinger of her little hand saying: "I will be good, dear Lehzen, I will be good," I then said: "But your Aunt Adelaide is still young, and may have children; and, of course, they will ascend the throne after their father William IV., and not you, princess."

The princess answered: "And, if that were so, I should never feel disappointed, for I know, by the love Aunt Adelaide bears for me, how fond she is of children."

BELL WEIGHING 98 TONS.

Over Twelve Feet High and Raised So That It May Be Rang.

For some time past there has been a sort of deadening between the two biggest bells in the world, the one at the cathedral in Moscow and the other in the unfinished pagoda of Mengoon, a little north of Mandalay, across the river. If the former was the bigger of the two, says the New York Journal, it is cracked, and, therefore, useless as a bell, while the latter, though whole, had dragged its supports down till it rested on the ground, and would not emit any sound. Now, however, it has been reswung, and can claim attention as the biggest bell, in working order, in the world. It averages over a foot in thickness. The bell itself is over 12 feet high, and the shackle, which was intended for logs of timber, about 12 feet. The pin in the shackle has a diameter of 16 inches. The bell was cast about the beginning of the century by King Bodaw-paya as an accompaniment to the huge brick pagoda which he never finished. It is said to have been cast on an island and rafted across. No proper means yet exist for striking the bell, but when hit with a heavy piece of wood it gives a deep, vibrating boom.

The Kaiser and Nansen.

When Fridtjof Nansen passed the day with Emperor William, the emperor introduced his children to his guest in a characteristic manner. After dinner the young princes were called. They filed in and stood "at attention" in military style. "Shake hands with this gentleman," said the emperor. "Look well at him. Some day you will be able to understand what his work is, and then you will be glad to be able to say you have met him."—San Francisco Chronicle.

Roman Catcombs.

The Roman catcombs are 550 miles in extent and it is estimated that from 6,000,000 to 15,000,000 dead are there interred.—Chicago Inter Ocean.

S. Emerich's new stock of dry goods,

ladies and childrens jackets and capes, ladies and childrens underwear is as complete as most any store can furnish and prices are still the same as before the tariff came into effect. oct10tf.

The largest assortment of artists

material in town at the Porteous Decorative Co.'s store on Virginia street.
